BIRKHOFF AND ROTA ORDINARY DIFFERENTIAL EQUATIONS PDF Garrett Birkhoff Was An American Mathematician.

He is best known for his work in lattice theory. The mathematician George Birkhoff was born June 7th, 1884 in Ooltgensplaat, Zuid Holland, The Netherlands. He immigrated to Chicago with his wife and seven children in 1869. His oldest son, George Jr., became the well-known Dutch Consul, and another son, David, became a physician. This medical doctor was George David's father. The maternal family, by the name Droppers, had arrived one generation earlier from Holland in 1870, and during George David's growing years was a physician in Chicago. Birkhoff studied at the Lewis Institute, Chicago, from 1896 to 1902, and at the University of Chicago for a year. After this he went to Harvard, where he received the bachelor's degree in 1905. Beginning in the year 1900 there appeared in the Proceedings of the American Academy of Arts and Sciences a paper by Birkhoff on the subject of self-similarity in the Birkhoff sum of the Denote partial fractions of α so
